

new product:

RV EEL™ Cordsets & Adapters

One Hand. A simple twist. Full Power.

The RV EEL (Easily Engaged Lock) Detachable Cordset has a patented, industry first, jaw-clamp design providing one-handed operation and a secure water-tight seal which completely eliminates the need for a locking ring. The RV EEL connection is built for the harshest environments and is UL approved. Best of all, it works with your current inlet. On the plug end of the cord, Park Power has added a large grip handle, that provides a safe connection and is movable so the electrical box can be closed. In addition to cordsets with the RV EEL System by Park Power also has a full set of pigtail adapters all using the new RV EEL technology.

- Revolutionary EEL jaw clamp technology eliminates locking ring
- One hand operation
- Water-tight connection
- Swivel handle allows box cover to close
- UL & CSA Listed

5 YEAR WARRANTY
